## Advanced EMS Internal Lead Auditor Course ISO 14001

### Course Description

EMS auditors are at the forefront of maintaining environmental standards and require a high level of expertise. Who better to provide this than EXPECTRA? We help to develop international standards and monitor evolving methodologies and best practice in the auditing of Environmental Management Systems (EMS).

This five-day residential course trains delegates to a high level of proficiency in EMS lead auditing methodologies and develops their awareness of ongoing development in this field.

### Who should attend?

- Individuals wishing to lead the assessment of a company's EMS compliance against EMS standards – ISO 14001 / EMAS
- Existing auditors and assessors in quality systems and health and safety management systems
- Potential EMAS verifiers
- Staff from organizations seeking UKAS accreditation (United Kingdom Accreditation Service) for certification against ISO 14001.

### Benefits to Your Business

A highly proficient EMS Lead Auditor with:

- Ability to conduct EMS audits to ISO 14001 and the EMAS scheme
  Knowledge of current best practice and environmental legislation
