

4.39.1 Introduction IMS (1 Day)

Introduction to Integrated Management Systems

Course Description

Based on the IMS book series, this One-Day introduction to IMS, outlines the approach to a more holistic management arrangement for organizations.

The Training course offers a golden opportunity for organizations to make their systems more focused on business needs. Our course identifies, in brief, a framework for your management system that can blend: Quality (ISO 9001:2000), Environment (ISO 14001:2004), Occupational Health and Safety (OHSAS ISO 18001:2007), Information Security (ISO 27001), Social Accountability and Corporate Governance.

This course is an overview of the in depth treatment given in our implementing an Integrated Management System course
